

**Federal Motor Carrier
Safety Administration**

U.S. Department of
Transportation

Driver Information Resource

June 16, 2006

Introduction

► Background

- Research points toward driver-related factors
- There is no central collection of commercial driver safety performance and regulatory compliance

► Objective

- Make available driver safety performance and regulatory compliance data in order to:
 - Support FMCSA field and State enforcement programs
 - Meet the pre-employment screening requirement of SAFETEA-LU
 - Provide data to support the development of a driver safety performance & compliance measurement system (a driver “SafeStat”)

Completed Tasks

► **Developed driver-event database**

- Derived from MCMIS crash and inspection records
- Approach
 - Performed data cleanup on key driver identification fields to improve accuracy
 - Implemented extensive matching algorithms for linking records
- Contains driver safety performance and regulatory compliance history

Completed Tasks, continued

▶ **Developed query capability**

- Allows users to query for a driver's history
 - Search By Driver: Last Name or License #
 - Search By Carrier: Carrier Name or US DOT #

▶ **Completed Beta Test of Driver Query Prototype**

- Provided operational prototype to select field personnel in October 2004
- Obtained feedback from field personnel on features and functionality
- Enhanced prototype based on feedback
- Beta Testing completed

Violation #	Description	# of Violations	# of OOS Violations
392.2	Local laws (general)	1	0
393.48(A)	Inoperative/defective brakes	1	0
393.70	Fifth wheel	1	0
393.9(A)	INOPERABLE REQUIRED LAMP	1	0

Internet

Status

- ▶ **Driver Query Prototype data current to December 2005**
 - 12.3 million inspection and crash events
 - Produces driver histories for 3.9 million drivers
 - Can be updated monthly from MCMIS ‘snapshots’ used by SafeStat

- ▶ **Discussing use of Driver Query to meet pre-employment screening requirements of SAFETEA-LU (Phase 2)**

Uses

► **More strategic uses of resources**

Target certain drivers during inspections and compliance reviews.

Phase 1 Update

- ▶ **Release fully operational system to FMCSA field and State enforcement personnel**
 - Provide secure internet access
 - Update data monthly
 - Maintain and enhance based on feedback from users
 - Provide users with procedure for correcting inaccurate information
 - Existing DataQ's system can support challenges on driver data in crash and inspection records
- ▶ **Research additional data sources for inclusion in the driver-event database**
- ▶ **Release will be soon**

Phase 2 Update

- ▶ **Assess use for satisfying SAFETEA-LU requirement to provide employing motor carriers with access to a driver's performance history**
 - Sec. 4117: “ shall provide persons conducting pre-employment screening services with electronic access to...”
 - CMV accident reports
 - Inspection reports with no driver-related safety violations
 - Serious driver-related safety violation reports
 - Develop plan for satisfying SAFETEA-LU requirement
